ACT WorkKeys Job Skill Statements Useful in this Career Field

(Based on WorkKeys Assessments, a product of ACT, Inc. More information available at: www.act.org/workkeys.)

Reading for Information	Skills				
Reading materials include elaborate procedures, complicated information, and legal regulations found in all kinds of workplace documents Complicated sentences with difficult words, jargon, and technical terms Most of the information needed to answer the items is not clearly stated	Identify implied details Use technical terms and jargon in new situations Apply complicated instructions to new situations Figure out the principles behind policies, rules, and procedures Apply general principles from the materials to similar and new situations Explain the rationale behind a procedure, policy, or communication				
Applied Mathematics	Skills				
May require considerable translation from verbal form to mathematical expression Generally require considerable setup and involve multiplestep calculations	Use fractions, negative numbers, ratios, percentages, or mixed numbers Rearrange a formula before solving a problem Use two formulas to change from one unit to another within the same system of measurement Use two formulas to change from one unit in one system of measurement to a unit in another system of measurement Find the best deal and use the result for another calculation Find areas of basic shapes when it may be necessary to rearrange the formula, convert units of measurement in the calculations, or use the result in further calculations Calculate multiple rates				
Locating Information	Skills				
Complicated workplace graphics, such as detailed forms, tables, graphs, diagrams, maps, or instrument gauges Graphics may have less common formats	Sort through distracting information Summarize information from one or more detailed graphics Identify trends shown in one or more detailed or complicated graphics				
One or more graphics are used at a time	Compare information and trends from one or more complicated graphics
