

***** **NEW TELECOURSE OPTION** *****

Video on Demand

Instead of obtaining VHS tapes through rental from the Telecourse Office or loan from the Library, students can view *some* telecourses online if they have access to a broadband connection. And . . . there is no charge for this service. The only requirement is to sign up at: <http://www.learner.org/vod/login.html>. Once registered, select your class from the list below and click on the VOD icon associated with the lesson. It's as simple as that.

(Suggestion: Create a shortcut to the class link on your desktop)
